

Happy Holidays and please have fun playing with Pressto. We know you have a voice. Use it with authority!

Here's a photo of the first zines made with Pressto. One is a coloring book.

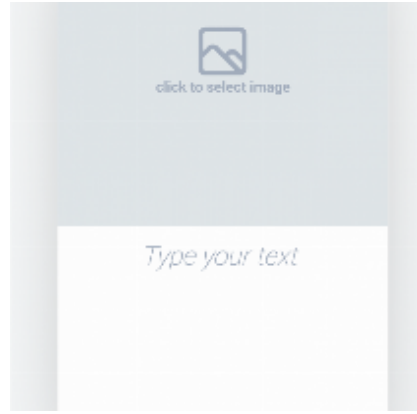

Made with Pressto.

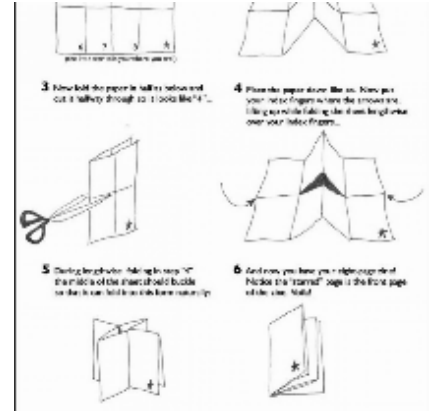

A mini-newspaper.
Also known as a 'zine.
Pressto makes it easy.

Use the educational tips to strengthen your writing. And don't worry if they're not perfect!

Use your voice!
Choose an image, and start typing. If you make it this far, you're already a rock star!

When you finish, you (1) click publish (2) print it (3) fold it up (4) make a cut, and finally (5) fold again.

So far, people have made zines about Michael Jordan, poppies, zonkies, Remembrance Day, starting a revolution, celebrating truth, learning to meditate, critical thinking, sharing what matters, poetry, love, essays, and one about Pressto (the one you're reading now).
